FUSION

## LOCAL MANUFACTURING

Quatro Design is synonymous with quality. To achieve consistent high quality and durability, our products are manufactured using modern and specialized GRC equipment.

The manufacture of GRC production requires a high degree of hands-on specialized labour coupled with close attention to detail.

Many of our employees are long standing and valued members of our team who understand GRC production and what is required to deliver consistent quality. These highly valued personal skills coupled with modern specialised GRC equipment is an important part of our manufacturing philosophy.

Each piece is checked during the manufacturing process to ensure compliance with our strict standards and to ensure that our products deliver on customer expectations.

We believe in the value of hand finishing all our products, with attention to detail that has been acquired over years of manufacturing and in supporting the development of our team.

## AUSTRALIAN MADE

We're incredibly proud of our Australian Made Certification; the support that we are able to give our local community and the role that we continue to play in enhancing the Australian built environment. We are also aware of our responsibility to our planet and the larger global community, and in response have introduced many greening initiatives in our factory to reduce our footprint.

## OUR DESIGN PHILOSOPHY

Our design philosophy has always been guided by the celebration of basic shapes and forms ensuring that every product range will compliment rather than compete with the surrounding landscape.

This philosophy has allowed us to create truly timeless landscape product ranges.

We work with leading architecture, landscape architecture and design firms to provide solutions for their projects. Additionally, we work collaboratively with some of Australia's best design talent to design some of our own product ranges.

**"I don't divide  
architecture,  
landscape and  
gardening; to me  
they are one."**

**— LUIS BARRAGAN**

# FUSION

Our Fusion collection uses a classic shape which has been modified to inject contrast into the urban landscape. These GRC planters are made in two parts and then joined together, this allows the custom option of either one or two colours of your choice.

Our four standard colours are: White, Kalgoorlie, Concrete Grey and Charcoal. Visit [quatrodesign.com.au](http://quatrodesign.com.au) for more information on our colour options, accessories, product specifications and drawings.

## BESPOKE TONALITY
