ZEN BOWLS

ABOUT

We stand at the intersection of landscape and architecture, our work is founded in balance — between people and place — enhancing the Australian built environment through quality, design detail and durability that surpasses time and trends.

AUSTRALIAN MANUFACTURING

Quatro Design is synonymous with quality. To achieve consistent high quality and durability, our products are manufactured using modern and specialized GRC equipment.

The manufacture of GRC production requires a high degree of hands-on specialized labour coupled with close attention to detail.

Many of our employees are long standing and valued members of our team who understand GRC production and what is required to deliver consistent quality. These highly valued personal skills coupled with modern specialised GRC equipment is an important part of our manufacturing philosophy.

Each piece is checked during the manufacturing process to ensure compliance with our strict standards and to ensure that our products deliver on customer expectations.

We believe in the value of hand finishing all our products, with attention to detail that has been acquired over years of manufacturing and in supporting the development of our team.

We're proud of the support that we are able to give our local community and the role that we continue to play in enhancing the Australian built environment.

ZEN BOWLS

This iconic collection encourages pause and reflection. Designed to be viewed from above, these GRC bowls have a smooth surface on the inside and a hand trowelled textured surface on the underside. They can be used as planters or water features and come with a separate circular plinth (Excluding the 1900mm bowl). There is also a spillway option available.

Visit quatrodesign.com.au for more information on our colour options, accessories, product specifications and drawings.

A MOMENT OF HARMONY

800 Zen Bowl (incl 65 mm plinth)
ZBR808024
D 800 x H 245 mm
20kg Approx Weight
0.05 m³ Approx Volume
